Reference for Moondance Orchestra - orchestr Martina Kumžáka

We are confirming herewith that Moondance Orchestra - orchestr Martina Kumžáka was performing during the evening of the Opera Ball of the Städtische Theater Chemnitz gGmbH on the 10th of February 2018 in Chemnitz. Moondance Orchestra was playing different kinds of music – they started with some smooth and jazzy dinner music at the beginning of the evening and were softly increasing the beats up to optimum dance rhythms including slowfox, cha-cha, jive, quickstep, waltz and many more. In addition they chose a lot of popular hits, which made it easy to sing along, but also some really good suitable unknown songs, sometimes even sung in Czech.

The audience was highly amused and thrilled by the quality of the musicians and singers (Dasha, Naďa Wepperová, Michal Cerman, Dušan Kollár). This could be proved just by the dance floor, which was full all the time.

We, as the organization part of the Opera Ball, were very satisfied as well. The band was handling the special setting and even the limited space on the stage in a very professional way. There was no reason for us, to complain about the cooperation with Moondance Orchestra. That is why we want to thank all the member of the band for their performance and we would always recommend Moondance Orchestra for classy events as well as parties, weddings or similar occasions.
